Dear Supporter

## **Appeal for Funds – Please Help Us**

You will have seen from our newsletters that **Mobility Matters** has been making significant progress in its campaign to fight the DfT's proposed changes to s19 / s22 / s10B permit operations by engaging the TAS Partnership as well as Beverley Bell in collating detailed impact assessment data and setting the record straight in the trade press. We have held meetings with MPs Jesse Norman and Lilian Greenwood as well as been in contact with the DfT. All of this has been possible due to the goodwill of a committed steering group.

As you are aware, we originally asked that organisations joining this campaign provide financial support. Your donations are needed to continue the fight – the future of the CT sector may depend on it! Our next steps will include the preparation of evidential material to submit to the Parliamentary Transport Select Committee including the presentation of accurate impact assessments for the sector.

A bank account has now been set up and will be overseen by a finance committee. Periodic information will be made available to ensure transparency.

Our sector is extensive and resilient but this is an unprecedented situation. Some CT projects have already fallen victim to nervous local authorities withdrawing contracts and a number have closed down already. We believe that a collective voice is far more powerful and effective than each CT fighting its own small scale campaign and paying for its own legal advice.

By pooling our resources, we can collectively ensure our sector gets the representation it needs and the vital services in our communities can continue. Your financial support will help us achieve this. Together we are stronger!

We understand that individual circumstances vary hugely, the following will give guidance:

No. of vehicles	Amount £
1-5	200-500
6-9	1000
10-19	1500
20-49	2000
50+	5000
